DOLLS VILLA AT THE WARSAW BRITISH INTERNATIONAL SCHOOL

The British International School in Warsaw acquires a Dolls Villa for her children from 2½ to 7 years. The acquisition is a result of a economic delegation, which had taken place in June 2014 in parallel with the state visit of King Willem-Alexander and Queen Maxima.

The head of the Early Years Centre of the British International School commented that innovation and top quality are decisive in the selection of new acquisitions for the kids at school: "We are always looking for top-quality and innovative objects for the children of our school. Parents pay a lot and this is a way to show to them that their investments are worth it."

The British International School in Warsaw is part of Nord Anglia Education, a worldwide leader in providing high quality, innovative education to thousands of students across the globe. Supported and directed by a team of educational experts, Nord Anglia Education's Schools are located in Asia, USA, Europe and the Middle East.
