

Liliane Leading dolls villa This beautiful dolls villa is the perfect focus for group and independent play. The thought and detail that has gone into the villa is what makes it so special. It is both sturdy and mobile and made from sustainable design materials. The villa can encourage group play between siblings and friends, and aid self expression as well as imagination. It is a great piece for adults and children to play at together. By involving yourself with your child in this way, you can observe developmental phases emerging within your child.
